PROFESSIONAL EXPERIENCE

Senior Video Producer | Newton School of Technology • Bengaluru, India — **Oct 2025 – Present**

- Produce and edit high-retention educational and brand content for Newton School of Technology's YouTube ecosystem.
- Develop motion-graphics-driven visual formats and creative narratives to strengthen brand identity and improve viewer engagement.

Senior Video Producer | Salar Digital • Bengaluru, India — **Sep 2023 – Sep 2025**

- Spearheaded YouTube content strategy and video operations, **scaling the channel from 120K to 445K subscribers (+325K growth)** and expanding views from **5M to 16M+ (+11M growth)**.
- Owned end-to-end production pipeline: concept development, editorial research, scripting, interviews, shoots, editing, motion graphics, and final delivery.
- Managed creative team of video editors, motion graphics artists, and VFX specialists; optimized packaging, video titles, and formats around audience retention and algorithm performance.

Senior Video Editor | Newton School • Bengaluru, India — Apr 2022 – Aug 2023

- Directed video production operations across **12 active YouTube channels** (YouTube Originals & Educator Management), leading a 12-member content and design team.
- Headed the Async Learning Project, producing **10+ comprehensive video courses** utilizing chroma workflows, curriculum-aligned animation, and motion graphics.
- Designed and built an in-house video studio for podcasts, promotional campaigns, and internal training—**reducing post-production turnaround time by 30%**.
- Improved audience engagement and click-through rates through thumbnail optimization, analytics-led packaging, and streamlined content workflows.

Senior Video Editor | Asianet News Media & Entertainment Pvt Ltd • Bengaluru, India — Sep 2019 – Apr 2022

- Produced and edited high-retention digital news content and motion graphics formats for Asianet Newsable's YouTube ecosystem.
- Led video editors and graphics designers supporting flagship debate shows, breaking news, and special feature programming.

Broadcast Producer & Director | Republic World • Mumbai, India — May 2017 – Sep 2019

- Led team of video editors and graphics designers for special broadcast shows and live programming.
- Executed panel direction in the Production Control Room (PCR) during major events, national elections, and outdoor broadcasts.
- Coordinated anchors, producers, and on-air talent to conceptualize and produce high-impact news segments.

Assistant Producer | Times Network • Mumbai, India — Apr 2013 – Mar 2017

- Managed Production Control Room (PCR) panel operations, overseeing display screens, control consoles, live-show readiness, and compliance for national television output.
- Ensured reliability of broadcast equipment by effectively troubleshooting technical issues during live broadcasts.

Junior Assistant Producer | BIG NEWS9 • Bengaluru, India — Jul 2012 – Mar 2013

- Produced promos and supported live control-room operations, building foundational expertise in broadcast journalism and TV production.

FLAGSHIP AI MEDIA SYSTEM

The Newsroom Global | Autonomous AI Video Generation System — 2026

- Built an autonomous media production pipeline converting news topics into publish-ready, multi-platform video packages.
- Automated documentary-style script generation and fact-checking using **Claude API + Ollama**.
- Integrated **CogVideoX + AnimateDiff** for AI B-roll generation, neural text-to-speech voiceovers, FFmpeg video rendering, and automated audio ducking.
- Created a Telegram-controlled workflow with 6 production modes, enabling mobile execution and automated publishing across YouTube, Facebook, and LinkedIn.
